

Storyline for Secondary teacher? Yes, it's possible!

Christina Roewe

A day later a group of European Secondary teachers arrived in Glasgow. We also created a Storyline with the topic "Capital Tours", but with the emphasis on Secondary teaching. The colleagues from Portugal, Spain, Rumania, Germany, Italy and Sweden had the chance to find out how the method Storyline works and motivates pupils **and** teachers. It was a great pleasure to work with Steve Bell and to meet Sally Hawkins. A special thanks goes to Gisela Ehlers and Hannelore Tait who did a perfect job in planning and organising the week and in motivating and inspiring the group. We all went home with a suitcase full of ideas! Thank you!
